

Life in the Heartland

Brendan Curley, VP Heartland Operations
February 22nd, 2024

Forward-Looking Information

Certain information contained herein, or the verbal presentation which accompanies this Presentation may constitute forward-looking statements and information (collectively, “forward-looking statements”) within the meaning of applicable securities legislation that involve known and unknown risks, assumptions, uncertainties and other factors. Forward-looking statements often contain terms such as “anticipates”, “assumes”, “could”, “continue”, “estimates”, “expects”, “focus”, “forecast”, “implies”, “intends”, “outlook”, “plans”, “potential”, “probable”, “projects”, “proposed”, “should”, “target”, “will”, “would” “create”, “expand”, “explore”, “unlikely”, “if”, “seeks” and similar words suggesting future outcomes or statements regarding an outlook. Readers are cautioned not to place undue reliance on forward-looking statements. Such statements reflect the current views of Inter Pipeline Ltd. and its subsidiaries (collectively, Inter Pipeline) with respect to future events and are subject to certain risks, uncertainties and assumptions that could cause Inter Pipeline’s results to differ materially from those expressed in the forward-looking statements. In particular, but without limiting the foregoing, this Presentation contains forward-looking statements pertaining to, and Inter Pipeline have made certain assumptions regarding, among other things: statements regarding Inter Pipeline’s business (including the plans and purpose for each of its four business segments); its long-term strategy to protect, develop and expand high-quality assets; the ability to provide continuous improvement in supply chain and business opportunities with indigenous engagements and the ability to enable more sustainable practices across a variety of industries for continual improvement and responsible operations. Any such forward-looking statements are based solely on the current expectations of Inter Pipeline but inherently are subject to a variety of risks and uncertainties that could cause actual results to differ materially from those projected. Such risks and uncertainties include, among others, general economic and business conditions, competition, changes in political, social and economic conditions, technological changes, regulatory initiatives, compliance with governmental regulations, risks and assumptions associated with operations, such as Inter Pipeline’s ability to successfully implement its strategic initiatives and achieve expected benefits therefrom, including: the further development of its projects and facilities; assumptions concerning operational reliability; the potential delays of and increased supply chain risks, inflationary pressures and costs of construction projects and future expansions of Inter Pipeline’s assets; the realization of the anticipated benefits of acquisitions and other projects Inter Pipeline is developing, risks of war (including the war in the Ukraine and the Israel-Hamas war), hostilities, civil insurrection, pandemics, political, geopolitical and economic instability and conditions in or affecting countries in which Inter Pipeline and its affiliates operate; severe weather conditions, natural disasters including forest fires, drought and risks related to climate change; terrorist threats; risks associated with technology (including artificial intelligence) and cyber security; availability of energy commodities; volatility of and assumptions regarding prices of energy commodities; fluctuations in currency and interest rates; changes in laws and regulations, including environmental, regulatory and taxation laws, and the interpretation of such changes to Inter Pipeline’s business; the risks associated with existing and potential or threatened future lawsuits and regulatory actions against Inter Pipeline and its affiliates; general economic and business conditions as further described in Inter Pipeline’s reports and filings on Inter Pipeline’s business and general economic and business conditions and markets, and various other events, conditions and circumstances, all of which are difficult or impossible to predict accurately, and many of which are beyond the control of Inter Pipeline. Although Inter Pipeline believes that the assumptions underlying the forward-looking statements are reasonable, any of the assumptions could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this presentation will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation or guarantee by Inter Pipeline or by any other person that the objectives and plans of Inter Pipeline will be achieved. Inter Pipeline expressly disclaims any obligation or undertaking to release any updates or revisions to any forward-looking statement contained herein to reflect any change in Inter Pipeline’s expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. For this purpose, any statements that are not statements of historical fact are deemed to be forward-looking statements. The forward-looking statements contained in this Presentation are expressly qualified by this cautionary note.

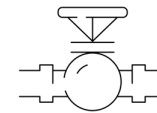

Market Data

This Presentation contains statistical data, market research and industry forecasts that were obtained from government or other industry publications and reports or based on estimates derived from such publications and reports and management’s knowledge of, and experience in, the markets in which Inter Pipeline operates. Government and industry publications and reports generally indicate that they have obtained their information from sources believed to be reliable, but do not guarantee the accuracy and completeness of their information. Often, such information is provided subject to specific terms and conditions limiting the liability of the provider, disclaiming any responsibility for such information, and/or limiting a third party’s ability to rely on such information. None of the authors of such publications and reports has provided any form of consultation, advice or counsel regarding any aspect of, or is in any way whatsoever associated with, Inter Pipeline. Further, certain of these organizations are advisors to participants in the energy infrastructure industry, and they may present information in a manner that is more favourable to that industry than would be presented by an independent source. Actual outcomes may vary materially from those forecast in such reports or publications, and the prospect for material variation can be expected to increase as the length of the forecast period increases. While Inter Pipeline believes this data to be reliable, market and industry data is subject to variations and cannot be verified due to limits on the availability and reliability of data inputs, the voluntary nature of the data gathering process and other limitations and uncertainties inherent in any market or other survey. Accordingly, the accuracy, currency and completeness of this information cannot be guaranteed. Inter Pipeline has not independently verified any of the data from third party sources referred to in the Presentation or ascertained the underlying assumptions relied upon by such sources.

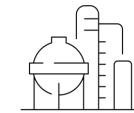

About Inter Pipeline

- World-scale energy infrastructure business
- Four business segments:

Transportation

Facilities
Infrastructure

Marketing

Heartland

- Strong presence in the Heartland:
 - Redwater Olefinic Fractionator
 - Heartland Petrochemical Complex
 - Pipeline control room in Sherwood Park
 - 400+ employees in the region

Dedicated to the Community

- Over \$3.9 million donated across operating area in 2023
- Multi-year partnerships with local organizations including the Kids Kottage Foundation, APPLE Schools, Missing Children Society of Canada and the Robb Nash Project
